

## **Bike Tours on Paxos**

Explore Paxos at 25 km/h. We think it's just the perfect speed to unroll the landscape in front of you, to feel the warm wind on your skin, to smell the scents of the herbs, to listen to the waves on the pebbles.

Our E-bikes are easy-going for anyone with a minimum ability on the bicycle. We are experienced enough to understand and adapt to your wishes while riding and challenge you with long rides or just chill out at the best spot. We will guide you around to ensure your safety, to show you hidden corners, to chat, both explaining the place and listening to your impressions.

All tours are open to anyone capable of riding a bike. Activity level is from light to more challenging rides if preferred.

The tours starting from Gaios cross most of the island at the pace of the party. Also available as tailor-made itineraries: sunsets, beaches, sightseeing, churches etc.
